Keeping your pet both fed and hydrated on the road is a must. Feed + Toss™ bowls and disposable liners are convenient and perfect for summer travel.

The bowls consist of two pieces: a solid, heavyweight plastic base with a non-skid design, and disposable liners made of recyclable plastic with portion control measurements which snap securely into the base.

Your pet can enjoy a meal or a drink on the road from a clean bowl.. and you can enjoy the convenience of washing it or tossing it!

Parker, a five-year-old yellow lab, has been perfect since the time he was a puppy, according to his adoring father. Parker loves to help out around the house by bringing in the mail, helping his dad take off his socks and delivering his dad his water bottle when he gets home. When his dad does laundry, Parker even walks behind him to help pick up any clothes that fall on the floor. What a loveable lab!

Meet Stud and Muffin! These two precious felines are from Whittier, Calif., and are just four months old. Stud is a Seal Point Siamese and is wearing the blue collar and Muffin is a Seal Point Balinese. Their mom is shocked at how much they have grown in the last few months. When these two are not cuddling together in their Fat Cat bed they can be found wreaking havoc on their mom's closet full of designer clothes. What curious kitties!

Welcome to Paw Print!

Summer is officially here! Now is the time to fire up the grill and invite friends and family over for a BBQ. Or perhaps you've planned a vacation getaway. During this season filled with outdoor celebrations it is important to take the proper precautions to ensure your pets' safety and well being.

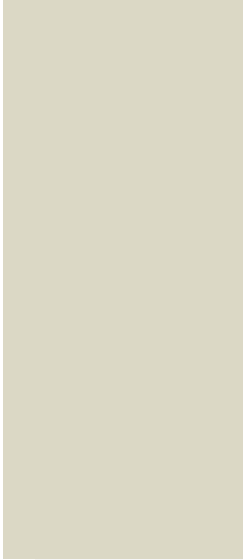

When hosting a party at your home, it is a good idea to secure your pet in a room away from the commotion with plenty of food and water. Pets may become skittish around groups of people. Containing them in a room will keep them from running away or biting if they feel threatened or scared.

If you plan to take your pet with you on a summer getaway it is important to travel with the appropriate items. Make sure to bring a pet product supply bag containing items such as blankets, a favorite toy, feeding bowls, a leash, waste bags, grooming brushes, medicines, bottled water, and a bag of food. Taking comforts of home on the road eases anxiety by providing pets with familiar scents and tastes.

If you will be traveling by car it is important to use the proper restraint for your pet such as the Quick Control® Leash + seat belt latch. Recognized by [Bark Buckle Up](#), this leash helps reduce driver distraction and helps keep all passengers safer. Never leave your pet in the car and make sure to schedule stops every three hours to relieve your pet and make sure he is fed and able to re-hydrate.
